

## **Food, Friends and Formula 1 Fun!**

On Thursday, March 26th, the NEPPA crew traded the office for the fast lane at F1 Arcade Boston. It was the perfect mix of high-speed competition and high-end vibes—think elevated gastropub eats, zero wait at the bar, and a room full of laughs (and some very vocal wins).

The highlight of the night? A total takeover. In a display of pure, rowdy participation, all ten simulators were occupied at once. The entire group went head-to-head in a synchronized race, battling for the podium as one high-energy pack.

As for my racing abilities? My best was 4th place—not too shabby but consider this a warning: I'm officially working on my drifting.
